

HAUS 0.140

HAUS 0.140 is an EKO Realty project that seeks pragmatism and a proposal for total leisure in a one-story house with a plot of 1,399m² located in the closed condominium Fazenda Serra Azul with horse riding and a golf course a few miles from So Paulo. The project features 4 suites, a living room and dining room that are entirely integrated with a barbecue, an infinity pool, and a beach tennis court lounge on 350 m². With wide sliding doors on two sides and the whole length of the space, it transforms the home into a crusade, totally interwoven with outside recreation.

HAUS 0.140

Wooden doors conceal the rooms that open into the pool area, giving the project a modern, minimalist air.

The balcony's sliding doors are completely open, allowing the entire room open and merged into the gourmet space without the need to create other sections, improving the house's usability by incorporating the outside BBQ area and pergola in the room.

A land with 1,399m² with complete leisure with swimming pool, hot tub, solarium and beach tennis court with lounge

Beach tennis has grown in popularity in Brazil, becoming one of the most inclusive sports practiced by people of all ages. As a result, the project's implantation of a beach tennis court with official measures, as well as a fully integrated lounge with a pool and barbecue, provides a one-of-a-kind leisure experience.
